The difference is.....

McGovern Kitchen Design was established in 1985 by Fintan McGovern. Fintan has grown his business from humble beginnings, working solo designing, manufacturing and installing kitchens himself.

Over the years the business has expanded on its reputation for quality workmanship and first class personal design service, providing our customers with an exact specification and measurements. These two factors are what make McGovern Kitchen Design different.

Personal service is at the core of our business. All our clients meet Fintan for a personal consultation and he is involved in every kitchen we produce. When you visit our showroom Fintan and his staff will give you all the attention you require.

Come and meet us for yourself. We are a family business committed to creating great quality furniture and kitchens at fair, honest prices committed to helping you turn your kitchen ideas into reality.

Where do I start?

The best place to start is always with a visit to our showroom in Mullyneeny, Derrylin. You're welcome at any time between 9am and 5pm Monday to Friday (Saturday by appointment). We will guide you through our wide range of products and help you to refine your ideas. If you already have an idea of what you want, then we may be able to save you a journey and you can email or fax your plans and ideas to us

What next?

Around a week later we'll invite you to the showroom to view the initial room plan with 3D images and itemised pricing. You will have the opportunity to sit with our designer and refine the design until it suits perfectly. Our initial consultation is free but producing a full specification for a project takes many hours so we charge a nominal fee to release the plans which would suggest a commitment to our design, however this is deducted from your final invoice.

Project Management?

When you are completely happy with the full specification we will agree on a date to start. Plans will be issued to your builders, electricians and plumbers. Once work is under way, any fine-tuning can be discussed by email of phone and keep you updated at every stage.

We are very proud of our installation which featured in the August 2016 edition (issue 52) of Irish Kitchens Magazine entitled "Room With a View". Alice and Ryan kindly let photographer Claudio Salviato into their new lakeside home. Their bespoke modern kitchen encompasses both sophistication and character. A classic two tone colour scheme of pale kitchen furniture and dark work surfaces provide a dramatic effect.
